RESET

4. 재설정 – RESET FILTER fix

In admin SENT LOG

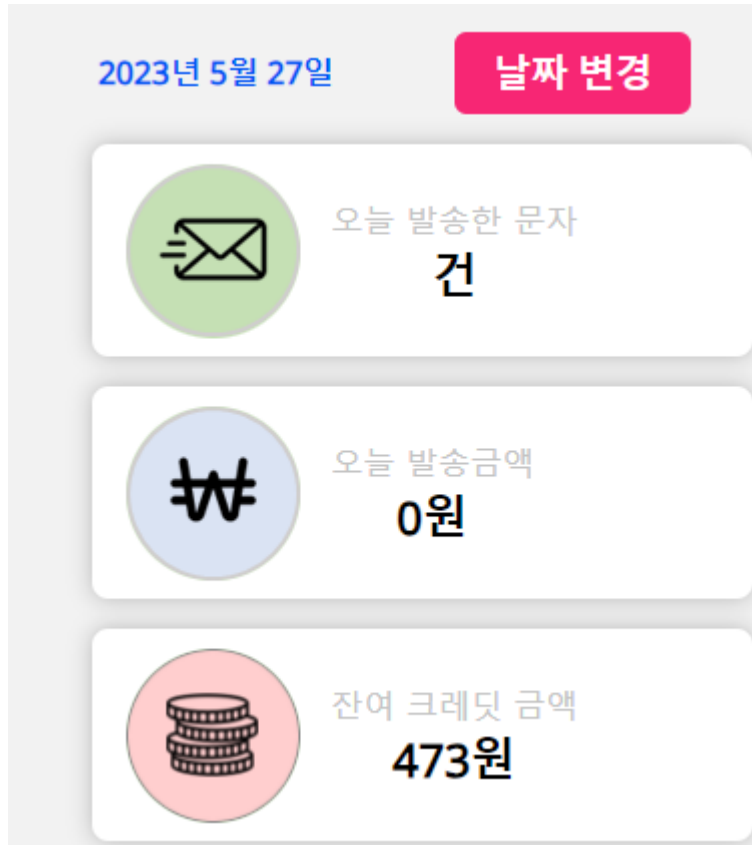

Button for APPLY FILTER=검색

And RESET = 초기화

5. DASHBOARD

CHANGE DATE = 날짜 변경 Button is not implemented yet

Dashboard numbers not implemented.
Superadmin's dashboard is the sum of all users

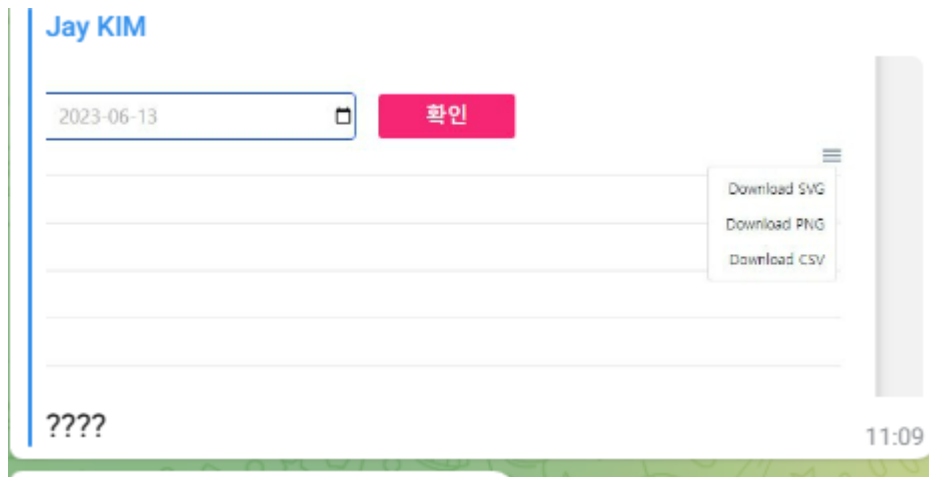

6.

Move to the middle more

7.

Remove the side menu

8.SEPARATE admin menus and User menu

9. Number Validation Algorithm

edit

First erase all the spaces,

Then erase all the hyphens(-)

Then

If number begins with 010,10,or 8210 and has 8 digits that follows

Then change it to 010XXXXXXXXX.

if the number does not start with 8210, 10, or 010 and does not have 8 digits that follow, then erase

valid numbers

010 1234 1234

010-1234-1234

010-1234 1234

010 12341234

01 01234 1234

1012341234 ... etc
